Cranial is a directional term meaning toward the head. The shoulder is cranial to the hip; it is closer to the head than is the hip. ANATOMY AND PHYSIOLOGY OF Farm Animals COPYRIGHTED MATERIAL Histology is the study of the microanatomy of cells, tissues, and organs as seen through a microscope. It examines the correlation between structure and function. Histology Guide teaches the visual art of recognizing the structure of cells and tissues and understanding how this is determined by their function. Histology Guide The part of science dealing with plant and animal tissues is known as histology. It is a mostly descriptive discipline that uses light and electron microscopy to describe tissue morphology. The
